## SCD122 USB Powered Display

Fast easy-to-read 2 lines x 20 character display from ESC/POS™, and OPOS™ support.

- Supplied with a choice of support including stand alone base and telescopic pole
- High speed data transfer using 2.0 USB interface
- Clear, fast easy-to-read with wide viewing angle
- ESC/POS™ emulation (dip switch selectable)
- Cyrillic character support (multiple code pages)

## SCD400 Customer Display

For use with POS and ECR Systems. The Star SCD400 Display uses the same serial interface as the Star POS printer.

- Reliable and versatile 2 lines x 20 character customer display
- Large, clear, easy-to-read characters
- Wide viewing angle
- Single interface for display and printer
- New Charcoal Grey and Star White versions available

## CB-2002 and CB-92II Cash Drawers for PC Point-of-Sale

Star's Series of cash drawers have been specifically designed to link with Star and other industry standard POS printers. These range from the basic entry level model to the larger version aimed at markets with more note sizes.

- Driven from the peripheral drive circuit of a Star or Epson POS printer
- Both versions include a compulsion switch
- 3 position key lock

**CB-92 II** – large cash drawer with 5 note and 8 coin slots in Star White or Charcoal Grey with chrome drawer front

**CB-2002 UN** – cash drawer with 8 upright note and 8 coin slots in ECO Black, Charcoal Grey and Star White with optional lockable cover – DK-AirCash wireless mobile option available

**CB-2002 FN** – cash drawer with 4 flat note clips and 8 upright note and 8 coin slots in ECO Black, Charcoal Grey and Star White with optional lockable cover – DK-AirCash wireless mobile option available

## SMD2 mPOS Cash Drawer Series

The Star SMD2 cash drawer series enables secure cash management in a mobile environment. Equipped with a standard RJ11 connection and included cable, wireless communication is also possible with Star's DK-AirCash including Bluetooth 2.1, MFI certified Bluetooth, Ethernet or WiFi connection options.

Adding to Star's existing mPOS product range, the SMD2 cash drawer series allows retailers flexibility in configuring their store layout without the limitations of cabling and other infrastructure restrictions. Available in small, medium and large sizes, in either Star Grey or Star Super White, Star has a solution to fit any situation.

**SMD2-1214** – the most compact cash drawer in its class with one long note slot.  
300(w) x 350(d) x 99.5(h) mm / 6kg

**SMD2-1317** – the ideal size for Retail.  
330(w) x 430(d) x 105(h) mm / 7kg

**SMD2-1617** – full size with 2 note slots.  
405(w) x 430(d) x 99(h) mm / 8kg

All drawers feature Kensington lock, standard RJ11 connectivity, 24V solenoid and ABS plastic 4 note / 4 coin slots except SMD2-1617 with 5 note and 5 coin slots.

Looking to match all hardware in your POS system?

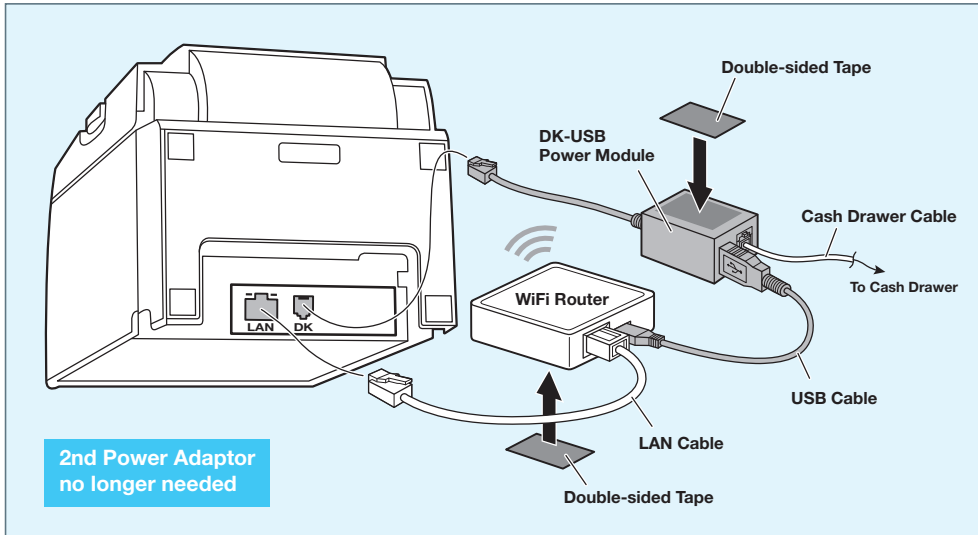

Team the new CB-2002FN cash drawer in ECO black with the new black TSP100ECO printer for the perfect match.

# mPOS Peripherals

## Star WiFi Power Pack

Providing simple WiFi printing directly from Smartphones, Tablets, PCs or any other mobile device to any Star LAN Printer.

- Designed to provide USB power for external 3rd party dongles minimising the number of external cables and power sockets required
- Available on Star's full range of LAN printers from the lowest cost TSP143 LAN to traditional TSP654II, TSP700II, TSP800II, SP700 Series and any other model with a DK connector

The Star WiFi Power Pack includes:

- ▶ 150 Mbps TP-Link Wireless N Nano Router – supporting AP (default), Client, Router, Repeater and Bridge modes
- ▶ DK-USB printer link – powers the TP-Link connecting to the Cash Drawer DK connector with “pass-through” capability for full cash drawer functionality including status

**DK-USB** – can also be purchased separately to “power” additional 3rd party dongles including 3G or alternative WiFi devices and can also be used to power/charge other USB devices including tablets.

## DK-AirCash

Low cost, Cash Drawer Accessory enabling mobile POS users to open the cash drawer of their choice with a standard RJ-11 printer connection via their mobile device in a variety of environments.

- Support for all traditional operating platforms including OPOS, Java-POS, Windows™, Android™, iOS™ and many more
- Neat, compact design (154 (w) x 75 (d) x 28 (h) mm)
- Retro-fit to existing installed cash drawers
- Draw Open Status retrievable by host
- Easy-to-Access Dip Switches for LAN/Bluetooth selection as well as other features including Cash Drawer Switch Polarity etc.

▶ No Printer required to open cash drawer!

Versions available:

**DK-AirCash SAC10E Ethernet** – Ethernet supported cash drawers can be fired by WiFi mobile devices communicating directly with mobile printers and opening the cash drawer via the store's network.

**DK-AirCash SAC10EB Apple MFi/Android Bluetooth & Ethernet** – allows devices to communicate directly with both the mobile receipt printer and cash drawer independently.

**DK-AirCash SAC10EW WiFi & Ethernet** – for direct communication with the cash drawer over IP without the need for a wired connection.
